

FOCUS

Sipario

Sipario: separazione acustica • Acoustic Separation • séparation acoustique

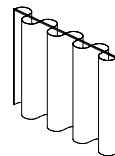

Tendaggio acustico realizzato in varie dimensioni, arricciato a "ONDA" con applicazione di fascia copri fettuccia e, nella parte bassa, rifinita da un orlo. La tenda è agganciata ad un apposito **profilo metallico, dritto o curvo, per fissaggio a soffitto**. La proprietà fonoassorbente è garantita da appositi test effettuati in laboratori accreditati.

Acoustic curtain made in various sizes, with a "WAVE" pleat, featuring a pull-cord tape and finished with a hem at the bottom. The curtain is hung on a specific metal profile, either straight or curved, for ceiling mounting.

The acoustic performance is guaranteed by specific tests carried out in accredited laboratories.

Rideau acoustique réalisé en différentes dimensions, avec un fronce en "VAGUE", avec application de bande cache-tirette et, dans la partie inférieure, finit par un ourlet. Le rideau est accroché à un profil métallique spécifique, droit ou courbé, pour fixation au plafond. La propriété phonique est garantie par des tests spécifiques réalisés dans des laboratoires accrédités.
